Subject: Baking Oven Quotes

As I enter my fourth year of employment as the Food Service Manager at the Cumberland County Jail, It has become apparent that major equipment in the kitchen requires immediate replacement in order for the this kitchen to properly function and continue to provide this facility meals on a daily basis. As a restaurant owner of many years, I have learned the "tricks of the trade" when it comes to prolonging equipment life. I also know when it's time to make the decision to properly invest in a kitchen's future. The baking ovens listed below are a major piece to the everyday function of this kitchen and the need for replacement is absolutely urgent. We currently have a total of six Vulcan baking ovens in the kitchen. These ovens are stacked three high on each other and set up as two stacks of three. All six of the ovens require a "Mercury switch" to engage. Mercury switches have been banned thus preventing any future repairs. All six ovens are inoperable and have been removed, by maintenance, from the kitchen to be scrapped. The following are estimates are for both new and used oven options.

Double Deck Oven Set-up
